

Assets Reports Page

KAStrack's Asset Module was developed before the Reports Module. This is now a legacy page. It is recommended that you use the Reports Module to create customizable reports.

Assets > Reports

○ Reports page!

All Asset Details Report (Asset Type : Cafe Equipment) [View](#) · [Export](#)

All Asset Details Report (Asset Type : Vehicle) [View](#) · [Export](#)

All Asset Details Report (Asset Type : Workout Equipment) [View](#) · [Export](#)

All Asset Details Report (No Asset Type) [View](#) · [Export](#)

Bowtie Parts Import [View](#) · [Export](#)

The Reports page still allows a user to view or export an All Asset Detail Report summarized by Asset Type.

If your company uses BowTieXP, you can export information from the Reports Page in the Assets Module to create a systems import for Bowtie XP.

How To: Run an Asset Report

To run an asset report, open the My Asset Page in the Assets Module on the Main Menu. Use filters as needed and identify the asset/component you want to run a report on. Click the three-dot icon to the right of the asset title opening a context menu.

My Assets

Search Tags Select Some Options

Show out of service assets and components

Set Filter Clear

Reports can be run for an asset in its entirety, specific components or subcomponents. They type of report can be selected from a dropdown menu on the Assets Report Modal. An explanation of report types is included in the table below.

Asset Report Type Explanation Table		
Report Type	Assets Report Modal Image	Description / Notes
Asset Status Report Modal		Options to include within the report include the following, which are selectable via checkbox: <ul style="list-style-type: none"> <input type="checkbox"/> Include Subcomponents <input type="checkbox"/> Include Green Tasks <input type="checkbox"/> Include Out Of Service Components <input type="checkbox"/> Expand Permissive Groups

Tasks Due in the Next Report Modal		<p>The "Tasks Due in the Next" Report allows the user to identify all upcoming tasks due over a customizable period of days / weeks / months / years.</p> <p>The report can be generated based on a period or usage.</p>
Tasks Due By Report Modal		<p>The "Tasks Due By" Report provides the same information, but allows the user to enter a specific calendar date.</p> <p>Both reports allow the user to include subcomponents if desired. The report can be generated on a period or usage.</p>
Task Summary Report Modal		<p>The Task Summary Report provides a summary of the status of all tasks.</p> <div style="border: 1px solid #0070C0; padding: 10px; background-color: #E6F2FF;"> <p>This report does not list all tasks associated with an asset.</p> </div>
Tasks Completed Report Modal		<p>The Tasks Completed Report Modal shows all tasks completed in a 30/60/90-day window or a specified date range.</p>
<p>Each Asset Report can be viewed as a report in KAStrack's Report Module, a PDF File, or an Excel Document.</p>		

Select the "Create Report" button after completing the inputs on the Assets Report Modal and the system will generate your report in the viewing preference you selected.
