

Settings Page: Module Levels

The Module Levels Tab of Settings Page can be accessed from the Main Menu. The system default module levels for the module are visible in the Module Levels Table. New module levels with customizable permissions can be created and managed on this tab.

Manage Module Levels

Courses > Settings > Module Levels

Module Levels

New Module Level

Module Level Name	Actions
Admin	
Guest	
Manager	
Staff	
Volunteer	

There are four system default module levels associated with the Courses Module. An explanation of the permissions associated with each default module level are shown in the Courses Module Level Permissions Table below.

System default module levels cannot be customized.

Courses Module Level Permissions Table	
Module Level	Permissions
Admin	Can manage rolls, add/edit/delete courses, see the stats page, view all course stats, manual reset course, test course, can take course on behalf of anyone
Guest	None
Manager	add/edit/delete courses, stats, manual reset course, test course
Staff	None

New Module Levels can be created in order to customize module level permissions. An explanation of the icons associated with customized module levels have been provided in the table below.

Module Level Customization Icons	
Icon	Explanation
	The eyeball icon allows you to view users assigned to the module level as well as the permissions assigned to them.
	The bulleted list icon allows you to assign permissions to customized module levels.
	The pencil icon opens the Edit Module Level Modal.
	The trashcan icon opens the Delete Module Level Confirmation Modal.

How To: Create A New Module Level (Courses Module)

To create a new module level in the Courses Module, open the Module Level Tab on the Settings Page from the Main Menu.

Manage Module Levels

Courses > Settings > Module Levels

Module Levels

New Module Level

Module Level Name	Actions
Admin	
Guest	
Manager	
Staff	
Volunteer	   

Click the "New Module Level" button.

New Module Level

Module Level Name *

Save

Cancel

This opens the New Module Level Modal. Input the name of the customized model level and select "Save." Module levels will be listed alphabetically in the Module Level Table.

Select the bulleted list permissions icon from the Actions Column to the right of the new module level.

Module Level Customization Icons

Icon	Explanation
	The eyeball icon allows you to view users assigned to the module level as well as the permissions assigned to them.
	The bulleted list icon allows you to assign permissions to customized module levels.
	The pencil icon opens the Edit Module Level Modal.
	The trashcan icon opens the Delete Module Level Confirmation Modal.

This opens the Permissions Modal. Select the desired permissions that you want assigned to the new Module Level.
