

Overview of Widgets

The Dashboard is comprised of speed dials and widgets. Speed dials allow you to establish links to KAStrack Documents, Forms, and even URLs, so that you can easily access desired webpages (including webpages outside of the KAStrack system). Widgets highlight module summaries or charts representing report information.

A detailed explanation of speed dials, module summary widgets and chart widgets is provided in the tables below.

Speed Dial Explanation Table		
Placement Options	Explanation	Images of Placement Location
Disabled	When placement is marked as disabled, the speed dials will no longer show on the dashboard. Disabled unpins the speed dial from the dashboard without deleting record of it from the Module.	
Top	<ul style="list-style-type: none">A speed dial with a top placement shows immediately under the page header.The vertical three dot icon opens a context menu with the options to edit or unpin.	

<p>Floating</p>	<ul style="list-style-type: none"> • A speed dial with floating placement is shown as an up arrow icon in the bottom right hand corner that expands when clicked. • The context menu shows below links when a floating speed dial is expanded, as well as options to edit and unpin. 	 <p>The screenshot shows a floating speed dial in the bottom right corner of a page. The dial is a green circle with a white up arrow. A context menu is open above it, listing 'Go To Meeting' and 'KAStack Website' with external link icons, and 'Unpin' and 'Edit' with their respective icons.</p>
<p>Widget</p>	<ul style="list-style-type: none"> • A speed dial with widget placement will show within the grid of module. • The vertical three dot icon opens a context menu with the options to edit or unpin. 	 <p>The screenshot shows a widget speed dial within a grid. The dial is titled 'KAStack' and contains two links: 'Go To Meeting' and 'KAStack Website'. A vertical three-dot icon is visible in the top right corner of the widget, indicating a context menu.</p>
