Access an Asset's QR Code

To access an asset's QR Code, open the Manage Asset Page in the Assets Module on the Main Menu. Use filters as needed and identify the asset/component whose QR Code you want to access. Click the three-dot icon to the right of the asset title opening the Asset Management context menu.

Select "QR Code" from the context menu. This opens the Asset Barcode Modal that displays an asset/component's QR Code that can be used for quick access to an asset.

Close the modal when done to return to the Manage Assets Page.
