

Change an Asset Type Name

To change an Asset Type name, go to the Asset Type Tab on the Settings Page of the Assets Module. Click the three-dot icon to the right of the Asset Type whose name you wish to change, opening the Asset Type Context Menu.

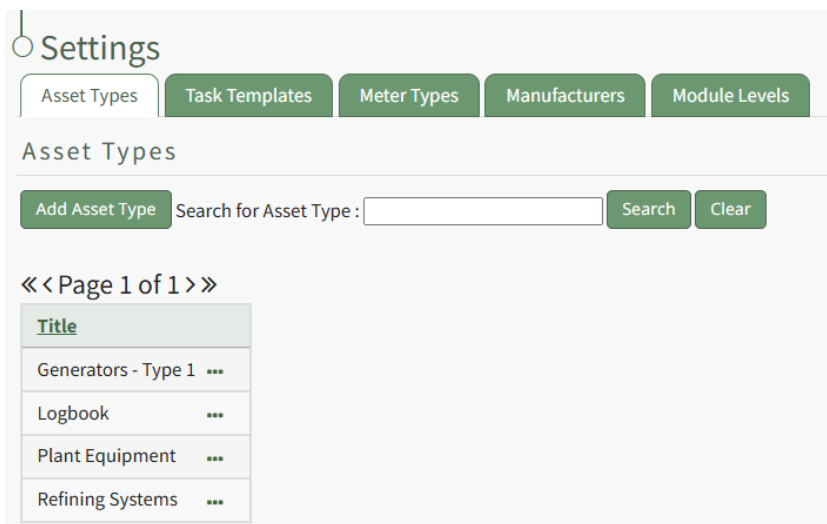

The screenshot shows the 'Settings' page with the 'Asset Types' tab selected. Below the tab are buttons for 'Add Asset Type', a search box, and 'Search' and 'Clear' buttons. A table lists asset types: 'Asset Type 1', 'Logbook', 'Plant Equipment', and 'Refining Systems'. A context menu is open over 'Asset Type 1', showing options: 'View', 'Fields', 'Edit' (highlighted), and 'Delete'.

Select "Edit" opening the Edit Asset Type Modal.

The 'Edit Asset Type' modal is shown with a title field containing 'Asset Type 1' and 'Save' and 'Cancel' buttons.

Edit the Asset Type name as desired and select the "Save" button. A pop up confirms that they asset type has been edited, and the changes in the title are now reflected on the Asset Type Table.

The screenshot shows the 'Settings' page with the 'Asset Types' tab selected. The table now shows 'Generators - Type 1' instead of 'Asset Type 1'. The context menu is no longer visible.
