Create a New Module Level (Courses Module)

To create a new module level in the Courses Module, open the Module Level Tab on the Settings Page from the Main Menu.

Click the "New Module Level" button.

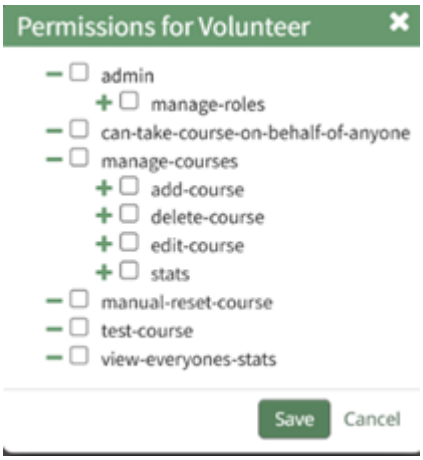

This opens the New Module Level Modal. Input the name of the customized model level and select “Save.” Module levels will be listed alphabetically in the Module Level Table.

Select the bulleted list permissions icon from the Actions Column to the right of the new module level.

Module Level Customization Icons	
Icon	**Explanation**
	The eyeball icon allows you to view users assigned to the module level as well as the permissions assigned to them.

	The bulleted list icon allows you to assign permissions to customized module levels.
	The pencil icon opens the Edit Module Level Modal.
	The trashcan icon opens the Delete Module Level Confirmation Modal.

This opens the Permissions Modal. Select the desired permissions that you want assigned to the new Module Level.

Click "Save" after selecting the desired permissions.

> Access levels for all modules can also be managed in the Site Settings Module under Access Levels.
