Delete a Tag

To delete a tag, go to the Manage Page in Tags Module. Select the Tags Tab.

Click the vertical three dot menu to the far right of the tag you wish to delete.

Select “Delete” from the context menu opening the Delete Tag Confirmation Modal.

The confirmation modal states, “Are you sure you want to delete the tag (Tag Name)?” and lists the entities that will be affected by the tag deletion.

Select “Delete” and the tag will be removed from the Tag List on the Tags Tab of the Manage Page.

> Deleting a Tag with Permissive / Restrictive behavior may change who can see and access entities assigned the tag in question.
