Delete a Workflow

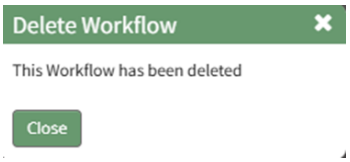

To delete a workflow, open the Workflows Tab on the Settings Page of the Action Module. Click the three-dot icon to the right of the Workflow title you wish to delete, opening the Workflow Context Menu.

Select “Delete Workflow” from the context menu opening the Delete Workflow Confirmation Modal, which states the title of the workflow to be deleted with the question, “Are you sure you want to delete this workflow?”

Select the “Delete” button.

The modal changes to confirm that the workflow has been deleted. Select the “Close” button. The workflow is no longer visible on the Workflow Title Table.
