

# Download Multiple QR Codes at Once

To download multiple QR Codes at once, open the QR Page in the Communications Module from the Main Menu.

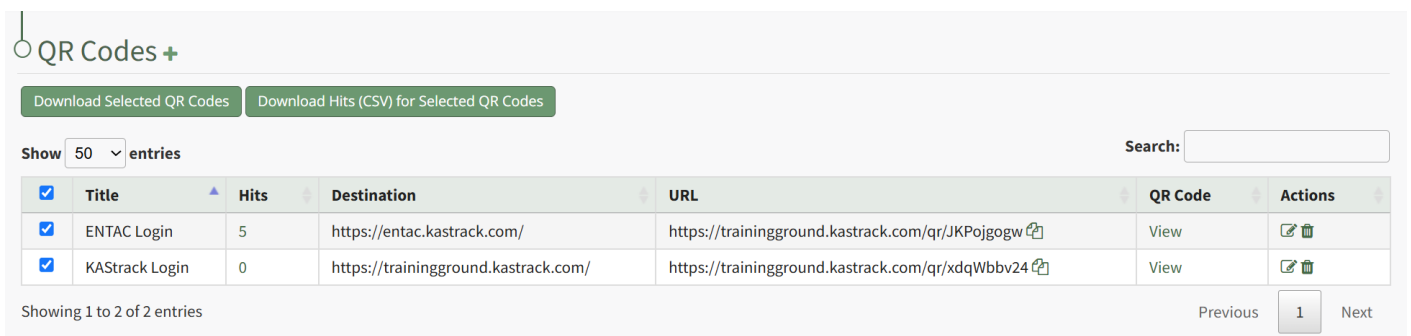

The screenshot shows the 'QR Codes' interface. At the top, there are two buttons: 'Download Selected QR Codes' and 'Download Hits (CSV) for Selected QR Codes'. Below these is a 'Show 50 entries' dropdown and a search box. A table lists two QR codes:

<input type="checkbox"/>	Title	Hits	Destination	URL	QR Code	Actions
<input type="checkbox"/>	ENTAC Login	5	https://entac.kastrack.com/	https://trainingground.kastrack.com/qr/JKPojpgogw	View	
<input type="checkbox"/>	KAStrack Login	0	https://trainingground.kastrack.com/	https://trainingground.kastrack.com/qr/xdqWbbv24	View	

At the bottom, it says 'Showing 1 to 2 of 2 entries' and has 'Previous', '1', and 'Next' navigation buttons.

Click the checkboxes to the right of the QR Codes you wish to download, or click the checkbox in the top header row to select all QR Codes.

This screenshot is identical to the previous one, but the checkboxes in the table header and for both rows are now checked.

<input checked="" type="checkbox"/>	Title	Hits	Destination	URL	QR Code	Actions
<input checked="" type="checkbox"/>	ENTAC Login	5	https://entac.kastrack.com/	https://trainingground.kastrack.com/qr/JKPojpgogw	View	
<input checked="" type="checkbox"/>	KAStrack Login	0	https://trainingground.kastrack.com/	https://trainingground.kastrack.com/qr/xdqWbbv24	View	

After selecting a checkbox, the buttons beneath the header can now be used. Click the "Download Selected QR Codes" button.

The screenshot shows a 'Downloads' window with a search icon and a menu icon. A file named 'qrcodes.zip' is listed with an 'Open file' link and folder/delete icons.

The selected QR Codes will automatically download as a .zip file to your personal device.
