Connect to an External System (e.g. Power BI)

Team	Year	Valuation (in mil USD)	EntryDate
Anaheim Ducks	2022-01-01	725	2023-06-19 16:13:57
Arizona Coyotes	2022-01-01	450	2023-06-19 16:13:57
Boston Bruins	2022-01-01	1400	2023-06-19 16:13:57
Buffalo Sabres	2022-01-01	610	2023-06-19 16:13:57
Calgary Flames	2022-01-01	855	2023-06-19 16:13:57
Carolina Hurricanes	2022-01-01	640	2023-06-19 16:13:57

Select the external link icon opening the External Connection Modal that gives detailed instructions for the process.

External Connection

Power BI

1. In Power BI, go to Get Data, choose Web and then click connect.
2. Click on Advanced.
3. In the First URL Part, enter the URL from below.

URL

`https://devfrontend.kastrack.com/reports/reports/other-download/5/DED---Form-for-Trending-Chart--NHL-Team-Valuations-in-mil-USD-/DED - Form for Trending Chart _NHL Team Valuations in mil USD_.csv?exportType=powerBI&u=3187`

4. Under HTTP Request Header Parameters, type **X-Kasauth**  in the left box, and the authorization key below in the right box.

Authorization Key

OGMzODk5ODYzZWRh

Regenerate Key

Note: Regenerating the key will revoke access to any existing connections

5. Click OK

Note: Due to a bug in Power BI, the column headers will only be recognized if the first column contains numbers! If the column headers are not automatically recognized, you will need to add them manually. [How to add column headers in Power BI](#)
