# Make a Hidden User a Visible User on the Users Table

To make a hidden user a visible user, open the Users Page in the People Module on the Main Menu. Click the "Include Hidden Users" checkbox so that the hidden user will be visible on the Users Table.

Click the three-dot icon to the right of the user's name who you wish to make visible opening the User Table Context Menu. Select "Show in Reports" from the context menu and the user is no longer hidden.

The individual and their user role and certifications report are now visible within the People Module.
