View Interim Notes Associated with Historical Tasks

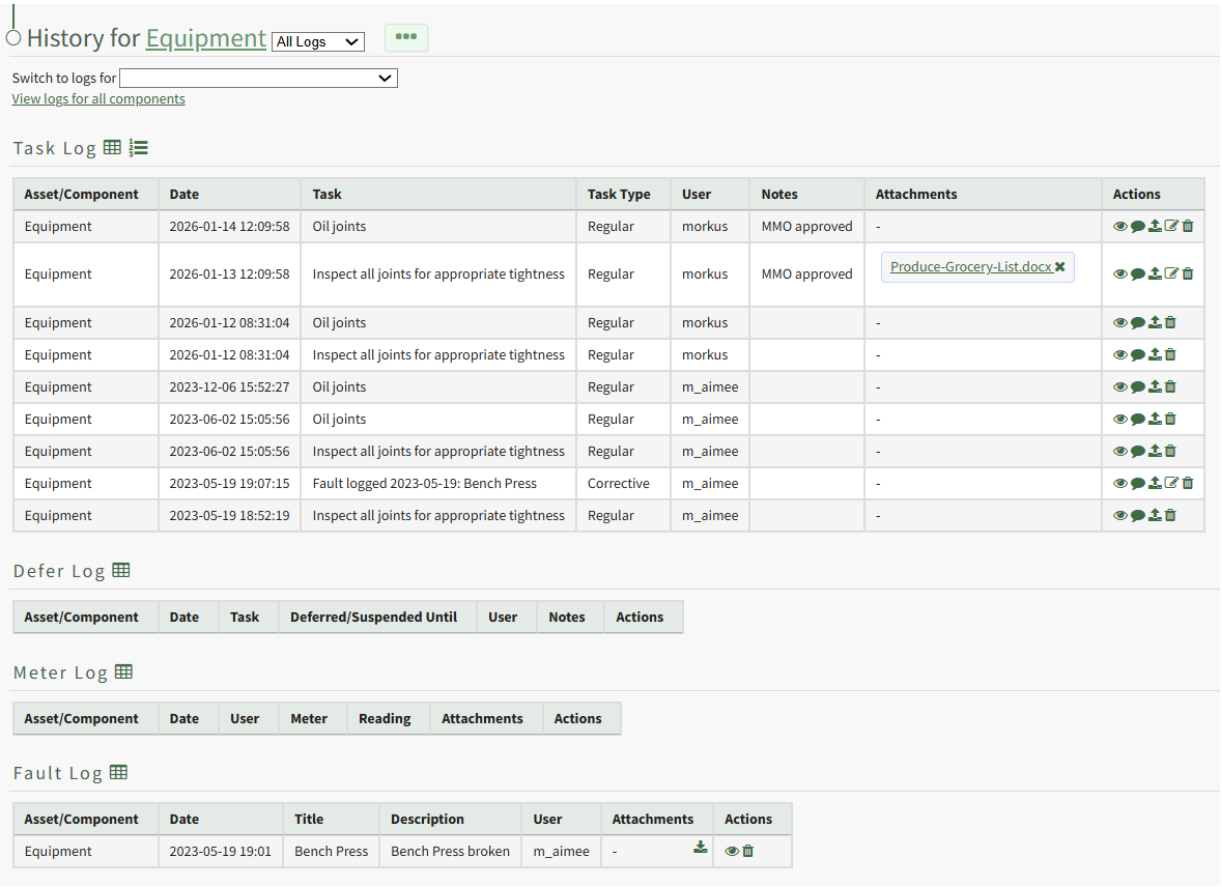

To view interim notes associated with historical tasks, open the relevant asset's History Page.

How To: View an Asset's Historical Logs

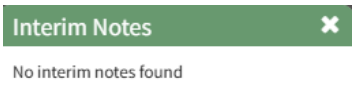

An asset's historical data can be accessed from an asset's History Page. To access an asset's history, go to the My Assets Page in the Assets Module on the Main Menu. Use the filters as needed to identify the access whose history you wish to view, and click the three-dot icon to the right of the asset name. This opens a context menu.

Select "History" from the context menu opening the Asset History Page.

Click the Dialogue Icon in the Actions Column to the right of the task whose interim notes you wish to view opening the Interim Notes Modal which displays any interim notes made on the historical task record.

If no interim notes were made on the task, the modal will indicate that no interim notes were found.
