View the Details of a File in the File Library

To view the details associated with a file in the Asset Module File Library, select the Files Page in the Assets Module on the Main Menu. Click the three-dot icon to the right of the file you wish to view in the File Library Table to open the Files Context Menu.

Select "View" from the context menu opening the View File Modal.

The read-only View File Modal shares the file's title, version number, description, and includes and references to tasks that use the file.

Click the "Close" button to return to the Files Page.
