- Site Settings Module Summary

# Site Settings Module Summary

The Site Settings Module is an administrative module that establishes parameters, settings, templates, profiles, and fields that impact other modules in KAStrack.

The Site Settings Page is comprised of ten tabs: Company Info Tab, Access Levels Tab, Security Tab, Registration Tab, Email Settings Tab, Inactive Accounts Tab, Payment Settings Tab, Account Fields Tab, Table Defaults Tab, and Logs Tab.  The Tabs are also visible on the Main Menu.

> The User Manual for the Site Settings Module is updated through Version 12.1.
